Diagnosaurus

1000+ differential diagnoses to help you make informed decisions.
Diagnosaurus

- Derived from AccessMedicine's trusted Quick Medical Diagnosis & Treatment (QMDT)
- Search by all entries, disease, symptom, or organ system
- Related entries linked by way of the "See Related DDx" feature
Diagnosaurus
Mobile access provided by DML via AccessMedicine or uCentral app
DynaMed Plus

Current, evidence-based information to support decision making at the point of care.
DynaMed Plus

◇ Easy-to-interpret levels of evidence labels so users can quickly determine the quality of the evidence.

◇ Updates can be viewed right from the home page and filtered by specialty.

◇ Overview and Recommendation sections for high-level review; Table of Contents helps users take a deeper dive into the evidence.
DynaMed Plus
Mobile app available through DML
Characteristics of both an electronic medical textbook and a medical reference system
DxPlain

◇ Descriptions and references for over 2,400 diseases and over 5000 clinical findings (symptoms, signs, epidemiologic data and laboratory, endoscopic and radiologic findings).

◇ Accepts a set of clinical findings to produce a ranked list of diagnoses

◇ Provides justification for why each of the diseases might be considered

◇ Suggests what further clinical information would be useful to collect for each disease

◇ Lists what clinical manifestations, if any, would be unusual or atypical for each of the specific diseases
First Consult (ClinicalKey)

Authoritative, evidence-based, and continuously updated clinical information resource for healthcare professionals
First Consult (ClinicalKey)

◇ For point of care use; instant, user-friendly access to the latest information on evaluation, diagnosis, clinical management, prognosis, and prevention

◇ Summarizes sources of evidence, primarily from the Cochrane Collaboration and the National Guideline Clearinghouse

◇ Evaluates evidence on a rating system derived from those produced by the American Academy of Family Physicians and the U.S. Agency for Healthcare Policy and Research Classification
First Consult (ClinicalKey)

Information is based on multiple sources including, but not limited to:
- respected textbooks
- peer-reviewed articles
- evidence databases
- drug alerts
- practice guidelines
- position papers reviewed and edited by opinion leaders in clinical practice
First Consult (ClinicalKey)
Mobile app available through DML
Isabel

Evidence-based knowledge in one click
Isabel

- Covers over 10,000 conditions, all ages and all specialties
- Enter labs, vitals and co-morbidities along with age, gender and travel history or import from the EMR
- Partners include Dynamed Plus®, 5 Minute Consult™, and Best Practice from the BMJ
Head-to-toe and systems-based physical examination techniques for the (Advanced) Assessment or Introduction to Clinical Medicine course
Bates

Objective Structured Clinical Examinations and Physical Examination Videos

Fifth Edition features completely reshot content and new clinical skills videos

Watch a full volume or view chapter by chapter

PDF transcripts and closed captioning provide extra access for those with disabilities or those who may want to use transcripts as handouts or teaching aids
